

TILSMART

DESIGN YOUR TOOLBOX ONLINE

Introduction

TILBOX is continually developing its products

TILSMART is a great online tool that our customers can use to configure their own toolboxes, for underneath a service bed or on top of a trailer, according to your own wishes or those of your customers. All you need to do is register to start configuring. You can choose the dimensions and material, as well as the required finish and locks.

The benefits of TILSMART

You get a live preview on the end result in TILSMART, which gives you a better idea of the finished product. All you need to do is request a quote. You can also keep track of order statuses, which are categorised by customer. This helps you keep an overview and saves time. Follow the 5 steps in this manual for optimum use of TILSMART!

1.Login

I already have an account

Click [here](#) to go to the TILSMART portal. Log in with your user name and password.

I don't have an account yet

To use TILSMART, you need to provide us with your personal information. Click [here](#) and fill in your personal information at the bottom of the page. Your TILSMART environment will be activated as soon as possible.

Welcome back,

Quotations created weekly

2.Placing an order

Home
Order Entry
Offertes
CRM Accounts

Go to order entry at the top left in the menu.

Select the type of toolbox.

Total Price*
*Prices do not include VAT
Create new quotation
Add new configuration

Configure the toolbox by reviewing all the options. Click 'create new quotation' at the bottom right for a detailed overview.

Add product configuration

An order overview will be displayed. You have the option of adding another product. Click 'add configuration' at the bottom of the screen.

Edit configuration

If you want to adapt a product, click 'edit configuration' at the bottom right of the screen.

☒ The delivery address of the order is the same as the contact address.

The shipping address will be automatically filled in. If you want us to deliver the products to another shipping address, enter it here. You can find more information on how to add another customer, for direct delivery, in Step 5.

Request files
English
Expires Date
28-02-2023
Quotation reference
Files
Download files

Enter the desired delivery period and reference.

Request files

Click on 'Request files' to generate files. You can now download the quotation. Please note: shipping is not included; this will be calculated afterwards.

Complete request

Click 'complete request' to finalise the quotation.

4
Completed

You will receive an email from TILBOX with a confirmation, the exact delivery date, and the shipping costs.

3. Quotation to the customer

Go to 'advanced document generation'.

Change the document type to DOCX and select the language. Download the document.

File type	DOCX
Language	English
Template	Offertedocument EN.docx

After downloading the document, you can change the letterhead and prices.

4. List of quotations

Click on 'quotations' at the top right in the menu to view all the current quotation statuses. You can also add a new quotation on this page, by clicking on 'add configurations'.

Quotations

Here you can create quotations and pair them with product configurations.

5. Adding customers

You can add customers to your account, without having to inform the customer. This makes it much easier to place an order on behalf of your customer. Here's how to create an account:

1. Go to 'CRM accounts' at the top left in the menu.
2. Click on '+' at the bottom right of the screen.
3. Enter the customer's details and indicate whether this is a customer, a seller, or a delivery address.
4. Go to quotations and generate the required quotation.
5. Click on the shopping cart to select the right account.
6. Click on the person icon to change the contact person.
7. In case of a different delivery address, untick the box below and select another address from your registered contacts.

Step 1: Menu navigation
Home
Order Entry
Offertes
Offertes
CRM Accounts

Step 2: Add button
Items per page: 10 | 1 - 10 of 13 | Manage table preferences
+

Step 3: Customer form
Email | Phone number | Phone number 2 | Customer reference
Address
Street * | House number * | State
Postal code * | City * | Country *
Default contact
Salutation | First name *
Surname prefix | Last name *

Step 4: Quotations
